

TECHNICAL DATA SHEET

MCW Soft Ceiling Tiles

MCW Soft Ceiling Tiles are high-performance soft fibre tiles engineered to provide Class A sound absorption (NRC 0.90).

Featuring a non-directional pattern and a robust edge structure, they deliver exceptional acoustic control for demanding interior environments.

Key Benefits

- Class A acoustic absorption
- ISO Class 4 cleanroom suitability
- 20mm thickness for enhanced durability
- Available in white and black finishes
- Reaction to fire rating: B1-s1, d0

Applications

MCW Soft Ceiling Tiles are ideal for acoustically sensitive spaces, including offices, SEN rooms, drama studios, classrooms, libraries, and cinemas.

Technical Details

Tile Dimensions	600mm (W) x 600mm (L) (595mm x 595mm Nominal)
Thickness	20mm
Acoustic Performance	Class A Sound Absorption (NRC 0.90), 25dB Attenuation
Light Reflection	8%
Reaction to Fire	Fire Rating B1-s1,d0
Finishes Available	White & Black
