

TECHNICAL DATA SHEET

MCW Soft Plus Ceiling Tiles

MCW Soft Plus Ceiling Tiles are high-performance soft fibre tiles engineered to provide Class A sound absorption (NRC 0.95) and outstanding sound attenuation of 43 dB (CAC).

Featuring a non-directional visual and a durable edge construction, they deliver exceptional acoustic control alongside clean aesthetics.

Key Benefits

- Class A acoustic absorption
- 99% RH Moisture Resistance
- 86% Light Reflectance
- ISO 4 Cleanliness Ratings
- 50mm Thickness for Durability

Applications

MCW Soft Plus Ceiling Tiles are ideal for acoustically sensitive environments, including open-plan offices, SEN rooms, drama studios, classrooms, libraries, and cinemas.

Technical Details

Tile Dimensions	600mm (W) x 600mm (L) (595mm x 595mm Nominal)
Thickness	50mm
Acoustic Performance	Class A Sound Absorption (NRC 0.95), 42dB Attenuation
Light Reflection	86%
Reaction to Fire	Fire Rating B1-s1,d0
Finishes Available
